OUTLINE CURRICULUM FOR
LINCOLN-WAY HIGH SCHOOLHomewood Sues For
Account of Special
Assessment Funds

ALL Homewood sues 1-14 Ko (CNS) The village of Homewood sued in Superior court last Thursday for an accounting of its special assessment funds, discovery of how much money has been misappropriated, if any, and for a declaratory judgment for any money that may have been lost.

Named as defendants were former village treasurer Fred Borgwardt, A. F. Trenning, individually and as operator of the A. F. Trenning and Company, Burton M. Apker, former village attorney Frank P. Cowling Sr., John Engle, Richard Klonda, Leonard C. Mead, Susan M. Nelson, Peter Pfeifer, Mae O. Spiegel, Joseph Schwarz, Louise Voodre, W. D. Wand, Leo J. Doyle as operator of Doyle and O'Connor company, the Bank of Homewood, the First National Bank of Blue Island, the Northern Trust Co., and the National Bank of Harvey.

In its complaint the village explained that it has caused 83 local improvements by special assessments since it was incorporated, and that it has issued bonds to pay for the improvements.

On May 1, 1951, according to the complaint, there was more than \$500,000 in unpaid principal balances on special assessments still open on the village books.

Borgwardt was village treasurer from May 1, 1951 until October 19, 1953. The defendants, according to Village Counsel Maurice R. Kraines, all received village checks for special assessment funds.

Borgwardt, without any authority from the village board of trustees according to the suit, issued checks of more than \$70,000 "purportedly" for the purchase and retirement of bonds.

An investigation of Borgwardt's records, Kraines said, revealed he sold \$2,312.60 worth of bonds to his own order. He said the former treasurer claimed he had purchased village bonds for his own account and had resold them to the village at a ten per cent profit.

Village Attorney Thomas J. McGrath said that Borgwardt wrote \$11,544.25 worth of checks against the National Bank of Harvey, payable to the Harvey bank and that the bank issued money orders in the same amount to various persons including Schwarz, who was village president until May 1, 1952.

Borgwardt's records showed these checks as issued to buy bonds, the village counsel said.

The village charges that Borgwardt entered a conspiracy to mulct the village of large sums of money. It contends he told bond owners that the village had very little money available to pay on the bonds, and that he then gave the owner's names and addresses to Trenning, who would buy them and present them for payment, receiving prices in excess of the purchase prices and over the due price.

Kraines said that Assistant State's Attorney Abbey Blattberg has asked for more information in the case. The situation came to light when bond owners sued the village, contending some holders were getting more for their bonds than others. Alfried Nelson was one of the plaintiffs to sue the village earlier.

Breaks Leg While
Showing New Motels
To Her Friends

Mrs. Walter Ruthenbeck broke her right leg just below the knee Sunday Nov. 22. The accident happened while she was showing a group of friends the new motels they now have under construction, just west of the Ruthenbeck home on Route 30, near New Lenox.

Mrs. Ruthenbeck was taken by her husband to Silver Cross hospital, where x-rays also showed a splinter of the bone close to the knee. Her leg was put in a cast, but she expects to return home within a week.

C. A. C. DANCE

A dance sponsored by the Homewood C. A. C. will be held at the Goodings Grove hall the evening of Dec. 5. Tickets are available from club members.

COMPLETE
WORK ON
WATER TANK

The Mokena village board met in regular session Tuesday evening. It was reported that the work on the village water tank and tower has been completed. The job consisted of painting, repairing the roof, and repairing the frost-proof jacket on the standpipe. This work was done by the Suburban Steeljack Contractors of Chicago.

Village clerk, Clavin Sorensen, reported that the vehicle license car stickers are on sale now, and are due as of January 1. The usual discount will be in effect. Stickers purchased now and up to February 28 will cost \$3, and the cost will be \$5 after that date.

The nuisance committee has received complaints following another recent accident at the corner of Mokena and First street, because of a high hedge surrounding the home of Rev. A. W. Gode, which, it is claimed, obstructs the view of those driving from the west. The board is considering erecting caution or stop signs at this corner.

The extra bill of \$600 rendered by DeLury and Cather for engineering report for water and sewer extension made for the village of Mokena was tabled. At the time this work was ordered, during the previous administration, it was agreed to pay this company \$500 for that work. They have now rendered a bill for \$1100. The \$500 has been paid by the village board.

In regard to delinquent water tax bills, the board instructed Judge Balaz to collect the balance unpaid and add his fee for collection.

Work on LaPorte road in grading and stoning has been done by the village in cooperation with Henry Yunker, highway commissioner. It is planned to oil that road in the spring when the bed is in proper condition.

The board received an invitation for police officers to meet with the Civil Defense Organization in the Red Cross rooms in Joliet this evening, Dec. 3.

Frankfort Women to
Attend Christmas
Banquet in Joliet

Miss Viola Lankenau, principal of the Frankfort public school, and Miss Isabelle Harmaning, Mrs. Carrie Johns and Mrs. Harry Marti will attend the P. F. T. C. Christmas banquet to be held at the First Lutheran church, Ottawa St., Joliet, Saturday, Dec. 5 at 6:30 p.m.

The next day, Sunday, Miss Lankenau will attend the Delta Kappa Gamma Christmas tea given at the First Presbyterian church in Joliet at 3 p.m.

Christmas Bazaar
And Bakery Sale

The annual Christmas bazaar and bakery sale of the Mokena Methodist church will be held in Cooper's garage Saturday, Dec. 5, starting at 2 p.m. This is being conducted under the auspices of Group 3 of the WSCS, with Mrs. Florence Pittman as chairman.

There will be new and unusual articles for sale, such as Christmas candles, stationery, holiday corsages, and a large variety of fancy work. There will be the usual bakery sale of pies, cakes etc.

It is suggested that early comers will get the best pick.

Snip 'N Snack 4-H

The Green Garden Snip 'N Snack club met Nov. 7 in the afternoon at Green Garden town hall. The meeting started off with square dancing led by Donna Elberts and Frances Kurima. Installation of officers was made by Mable P. Krapf, with the new president, Bette Stassen, took over.

The club is making metal trays this winter for their handcraft. Three new members and three guests were present at the meeting. Next meeting will be December 5.

Marley Man, 87,
Fractures Hip

Fred Sievert, 87, of Marley, slipped on the ice Sunday and fractured his right hip. He was taken to Silver Cross hospital, where he underwent surgery Wednesday morning.

Commended For Aid
In County-Wide
Chest X-Ray Survey

Dr. L. L. Fatheree, Will County Health Officer, and Mrs. Frances Moehl, Executive Secretary of the Will County Tuberculosis Association, have commended Mrs. Fern Brown, of New Lenox, for her work in connection with chest x-rays.

They write: "During June and July, 1953, you and your co-workers actively participated in a county wide x-ray survey. Because you gave so freely of your time and energy in behalf of this program we felt that you would be interested in the result of your efforts. The following provides a brief summary of the findings:

Total number of x-rays taken (75 mm.) 22,547; Number of x-rays taken in New Lenox, 350. Total number of retakes, (14"x17"), 549. Findings: Active cases of tuberculosis, 7. Inactive tuberculosis, 141. Cases of other chest diseases, 347.

"The Will County T. B. Association and the Will County Health Department wish to commend you for your fine spirit of cooperation in making this program a success. We feel that you have made a real contribution to the health and welfare of your community."

SALVATION
ARMY HOLDS
NATIONAL WEEK

National Salvation Army week is being observed through out the Chicago area Nov. 29 to Dec. 6. An official proclamation by Mayor H. Kennelly has designated the same period as Salvation Army Week in Chicago, to give special local emphasis to the national event.

The Salvation Army came to Chicago 68 years ago when three officers from the East opened the first headquarters on Chicago avenue. In Chicago now there are 37 corps, departments and institutions.

A greatly expanded haven for the chronically ill, the convalescent and the aged person needing a minimum of custodial care was dedicated by the Salvation Army on Oct. 29, with the opening of three new floors at the Catherine Booth hospital, 426 West Wisconsin St., Chicago. All types of chronically ill and convalescent patients are cared for at the hospital. These include patients whose conditions range from general debility to the specific long term afflictions such as polio, muscular dystrophy and multiple sclerosis.

Appoint Mokena and
N. L. VFW Members
Asst. Chief of Staff

Walter Horder, Adjutant of William Martin Post, VFW, Mokena, and Carl Mietsner, Commander of Harry E. Anderson Post 9545, New Lenox, have both been appointed Assistant Chief of Staff of the Fifth Illinois Veterans of Foreign Wars District. The announcement was made this week by Illinois VFW Commander Joseph Carnella.

Awarded \$25 in
Photograph Contest

Word has been received by Mrs. Fred Klepper of Frankfort, that her grandson, Steven Klepper, son of Mr. and Mrs. Clarence Klepper, formerly of Frankfort, has been awarded \$25 for placing first in the local phase and fifth in the national phase of a national photographic contest.

ALLEN C. FARR
DIES IN HOME

Allen C. Farr, who had resided in Orland Park about five years, died suddenly in his home Saturday afternoon, at about 4 o'clock. His wife, Clara, preceded him in death about a year ago last March.

Surviving are his mother, Iona Farr, his daughter, Virginia Schultz, and granddaughter, Cynthia, of Beverly Woods, a sister, Ethel O'Brien, of Chicago and three brothers, Richard of Orland Park, Ray of Chicago, and Russell of Joliet.

Funeral services were held Tuesday, Dec. 1, in Schmadeke's funeral home, with Mr. Walter B. Hulme, C. S., of the Christian Science church of Midlothian, reading. Burial was in Fairmont cemetery, with Rev. Robert DeMoss officiating.

The Semmler Newspaper's subscription campaign will end at 10:00 A. M. Saturday, Dec. 5, campaign manager Marvin Smith has announced. He emphasized that the campaign would close at 10:00 A. M. sharp and that under no circumstances would any subscriptions count for votes after that hour.

Commented that the campaign manager, "Let it be brought to the attention of candidates and subscribers alike that this is a neck and neck race between the ten persons eligible for cash awards. The outcome is still uncertain, and the winner will be decided by votes and votes only."

"As soon after 10 o'clock as a possible the judges will count the votes, examine the records, and announce the winners," Smith said.

The judges will be Mayor Walter Schussler of Orland Park, Harry Mager, president of Bremen State Bank, Tinley Park, and Everett Cooper, Cashier of Mokena State Bank.

"From now until 10 a.m. Saturday, each candidate will be spending every minute with one thought in mind: The grand prize, the Ford sedan. What prizes will be awarded and to whom will depend upon the final efforts of each candidate, plus the support given that can be obtained by the subscribers."

"Prizes and commissions will be awarded upon condition that the candidates return to this office all materials furnished by the Semmler Newspapers during this campaign."

It is up to the subscriber to put his favorite candidate over. They are deserving of all the support the subscriber can give them."

"I wish to express appreciation on behalf of myself to the people for their confidence, support, and generous response, and to the candidates for their achievements in this campaign. It has made my six week stay here a pleasant one, and has made this contest a great success," Smith concluded.

The following candidates are eligible for cash prizes:

Mrs. Edward Mosek, Orland Park; Mrs. Mary Ritchey, Orland Park; Mrs. Creta Kuech, Tinley Park; Mrs. Roy Erdmann, Mokena; Mrs. Charles Hostetler, Mokena; Mrs. Anton Benson, Mokena; Mrs. John Minion, New Lenox; Mrs. Florence Crouse, New Lenox; Mrs. Virginia Sasse, Marley and Mrs. Katharine Heisner, Frankfort.

After the awards are presented to the candidates, Mrs. Margaret M. Semmler, publisher, will tender a closing-campaign dinner at Schrage's restaurant, for the candidates and their hands, the judges and their wives, and the staff of the Semmler Newspaper office at Mokena.

Christmas Seals
Bring \$10,947.29
In Two Weeks

Dr. Gordon L. Richards, Seal Sale chairman of the Will County Tuberculosis Association, announced that during the past two weeks \$10,947.29 has been received from the sale of Christmas Seals from the residents of Will County.

Mr. John Oster, New Lenox Township Seal Sale Captain, reported that \$184.00 has been received from the TB Association from New Lenox Township.

Mrs. Margaret Semmler, Frankfort Township Seal Sale Captain, reported that \$221.50 has been sent to the TB Association from Frankfort Twp.

"When we buy seals," Dr. Richards said, "we are contributing to a sound program which will lead to the eradication of tuberculosis, a costly and unnecessary disease. Buy and use your Christmas Seals."

JOHN STEIN,
HOMER PIONEER
PASSES AWAY

Mr. John Stein, pioneer of Homer Township, died in his home, Sunday morning, November 29, after a brief illness. He was born March 3, 1866, in Homer township and had lived there all his life. He was a carpenter by trade and retired several years ago. His wife, Clara, preceded him in death four years ago.

He is survived by his daughter, Margaret Wagner; two sons, Matt of Homer township, and John of Lemont; one sister, Susan Wagner and four grandchildren.

Funeral services were held Dec. 2 at 9:30 a. m. from Schmadeke's Funeral Home and 10 a. m. in St. Michael's church with Rev. Frank M. Coyle officiating.

Injured in Auto
Accident On Way to
Visit Daughter

Mrs. Garrett Cummins and daughters of Alpine, Mrs. Roy Walker and Mrs. Roy Hamer, were injured in an auto accident Wednesday evening, Nov. 25 while enroute to the Little Company of Mary hospital in Chicago where another daughter, Mrs. Robert Nolan, had been admitted a short time earlier because of injuries received in a similar accident. Mrs. Nolan was injured when the car she was driving skidded on icy pavement on the bridge over the railroad tracks at Chicago Ridge. She was detained at the hospital until Saturday afternoon because it was feared she might have suffered a brain concussion. Occupants of the Cummins car were injured when their car skidded on icy pavement while crossing the Sag bridge. The car skidded, struck the last iron beam of the bridge and was thrown into a spin. All were taken to the Little Company of Mary hospital for examination and emergency treatment, but were not detained.

Mr. and Mrs. Cummins would like to know the name of the Frankfort man who was so helpful at the time of the accident. They were in a Dodge car.

John Hall Wed to
G. Anderson
Of Plainfield

Miss Gwendolyn Anderson, daughter of Mr. and Mrs. Hjalmar Anderson, of Plainfield and Mr. John A. Hall, son of Mrs. Frances Hall of Mokena and Willis Hall of Blue Island were united in marriage in St. Mary's Catholic church in Plainfield Saturday morning, Nov. 28 at 10 o'clock nuptial mass. The altar was decorated with white mums.

Mr. Anderson escorted his daughter to the altar. She wore a dress of white satin, with a finger tip veil, and carried a bouquet of white baby mums and a prayer book.

The double ring ceremony was performed by Rev. Father Herman Ezell.

Bridesmaid was Miss Joan Hoegger, of Odell, who wore a rose beige taffeta gown, with a head band of brown velvet, trimmed with pearls. She carried a bouquet of bronze mums.

Robert Welch, of Joliet, cousin of the groom, was best man, Susan Hall, small sister of the groom, was flower girl. She wore a floor length taffeta rose beige gown and carried a basket of rose petals.

Mrs. Frances Seigel was organist, and also accompanied Miss Ethel Walker, of Odell, who sang several solos.

The bride's mother wore a gown of teal blue crepe with black accessories and a white hat. The groom's mother wore a cinnamon brown crepe dress, with green accessories and a green velvet hat. Both wore corsages of white mums.

A wedding breakfast was served to the immediate families in the Woodruff hotel. Nineteen were present at the breakfast. Starting at 7 p.m. a reception was held in the St. George Serbian hall in Joliet, where they had refreshments and a four-tiered wedding cake. Dancing was enjoyed.

The newlyweds left on a short motor trip to Indiana. The bride is continuing her studies at the MacCormick Business College in Joliet and the groom is employed at the Electric Service Engineering Co. in Joliet. He is a graduate of Joliet Township high school and she was graduated from the Plainfield high school.

Tiny Patsy Deering
Badly Burned in
Fire, Is Improving

Patsy Deering, two month old daughter of Mr. and Mrs. Edward Deering of 14246 S. Cicero ave., Tinley Park is somewhat improved it is reported by St. Bernard hospital officials.

Several weeks ago Mrs. Deering and tiny Patsy were visiting Mrs. Deering's mother, Mrs. M. Leopoldt at 6851 Halsted street. Both mother and grandmother were momentarily out of the second floor apartment when a fire broke out. Lt. E. Markman of the Fire Patrol ascended to the second floor via ladder, while a stream of water was played on him to deflect the heat, and entered through a window. The baby was passed from fireman to fireman, thus a heroic rescue took place. Patsy was severely burned and for several days her life was in despair.

File Incorporation
Articles For North
Illinois Gas Co.

Articles of incorporation were filed Nov. 25 with the Illinois Secretary of State to establish Northern Illinois Gas Company. The new company is being organized as a subsidiary of Commonwealth Edison Co. to own and operate the gas properties of Edison's Public Service Company division which serves 450,000 gas customers in northern Illinois outside Chicago.

Willis Gale, Edison chairman, last month announced plans to segregate Edison's gas operations. He said that most of the present directors of Edison will also serve as directors of the new company. Management and personnel of the new company will be unchanged from those of the present Public Service gas operations.

Under the program, Edison plans to sell \$60,000,000 of mortgage bonds which will be a lien on the gas properties. Upon transfer of the gas properties, the bonds will constitute about 50 per cent of the new company's capitalization, will become the obligation of Northern Illinois gas company.

Gale also announced that the sale of the bonds was expected to be negotiated with a nationwide group of underwriters headed by The First Boston Corporation, Halsey, Stuart & Co., Inc., and Glorie, Forgan & Co. for public offering.

"Because of the many details still to be worked out," Gale said, "it is difficult to predict just when the bonds may be sold and when the gas company will begin operations. We hope, however, that this can be completed early in 1954. The program is, of course, subject to approval of the Illinois Commerce Commission, and to the effectiveness of a registration statement to be filed with the Securities and Exchange Commission."

SQUARE DANCE
IN MOKENA
SATURDAY NITE

Attention is called to the fact that the Mokena PTA will sponsor their every other Saturday night square dance this Saturday night, Dec. 5. The dance will be held in the public school, and will offer an opportunity for an especially enjoyable time not only for the young people, for whom it is primarily given, but for the older generation, who are also cordially invited.

The square dance has come down through the years with flying colors, and even the modern dances have not succeeded in pushing it aside. Nothing surer passes it for getting people acquainted. Those who do not care to dance will find it more than worthwhile to come and enjoy the music and the fun.

The Mokena PTA alternates square dancing with motion pictures on Saturday nights, both of which are free to the public. It is reported that the square dances are being attended better on each occasion, and the prospects of their continuance throughout the winter months looks very promising.

TO OPEN NEW
MIDWEST STORE
NEAR N. LENOX

Mr. and Mrs. Herman Hennig will open their new Midwest grocery store Friday, December 4, on the southwest corner of Cedar and Francis road, north of New Lenox. While they will specialize in homemade pork sausage, they will carry a complete line of fresh meats, vegetables, fruits and groceries. John Hossbach, of Joliet, will be the butcher. They will also carry ice cream, and the Sunday papers.

Grand opening for this new Midwest store will be held Friday, Dec. 18.

NEW BARBER SHOP

A barber shop will occupy one of the two new stores being built by the Elmore Realtors, directly south of their offices on Oak Park avenue. Raymond Manze, who has had his own shop for a number of years, on 79th street near Western avenue will be the new barber.

For the first time in history, Santa Claus will arrive in Tinley Park with the whole town turning out to meet him and give him a public welcome. He will arrive this Saturday, Dec. 5, at 10 a. m., on a beautiful Yuletide float, direct from the North Pole -- snow or no snow and will be stationed in the parking area just north of the Rock Island tracks in Tinley Park.

Santa Claus will be a big jolly, honest-to-goodness Santa Claus, and this pre-Christmas visit will put the children in the right frame of mind, for everyone knows that just before Christmas every child is "just as good as his 'kin' be." Kris Kringle will have an attentive ear for all the little ones, and listen to this—he will have in his pack a tasty gift for every child who comes to see him. And he has taken precautions to see that he won't run short.

"Santa Claus is coming to town" under the auspices of the Tinley Park Business Men's association, and everybody in Tinley Park and surrounding communities is invited.

This visit from Santa Claus is something the children have been looking forward to for a long time, for Santa Claus is their hero of heroes, unmatched by any hero on the video screen. Little boys and girls everywhere are now dreaming about Santa Claus, and for them this personal visit in Tinley Park will be a dream come suddenly, delightfully, true. For many children it will mean an opportunity to see and shake hands with Santa Claus for the very first time, the fulfillment of one of their most eager expectations.

Good old St. Nick doesn't want to miss a single child, so, if a child is sick at the time of his visit, or for some other reason cannot get to meet Santa Claus, parents have but to notify any Tinley Park merchant and Santa will pay a visit to the child's home.

Santa's visit to Tinley Park will also give a big boost to the Christmas spirit, of which there can never be too much. Stores everywhere are now aglow with the Christmas spirit, brimming over with gifts both practical and sentimental, sumptuous and simple. With Christmas drawing near, it is time to start thinking about that gift list, rather than wait until the last few days, and then in the thick of the Christmas rush dash out and buy something—anything—just for the sake of having a "re-membrance." Everyone should bear in mind that it is the thought and time that is put into a selection of gifts that makes an impression on the recipient.

But Santa Claus is not "coming to town" just once in Tinley. He is going to repeat his visit two weeks from Saturday, Dec. 19, as every child will want to see him again and whisper in his ear just what he wants most for Christmas.

Capt. Geo. Kunz to
Leave For Far East

Capt. George Kunz who has been home for months' furlough with his mother, Mrs. Antoinette Kunz, of Sunny Acres, and his sister will leave next Tuesday with his wife, by motor, for San Francisco, where he will ship out at the end of the month for service in the Far East.

Capt. Kunz came here with his wife from Fort Campbell, Ky., where he has been with the infantry. After he leaves for the Far East his wife will return to her parents in Duluth.

Mrs. Thelma Perley
Undergoes Surgery
In Billings Hospital

Mrs. Thelma Perley, of Wolf road, Mokena, underwent surgery in Billings hospital Monday morning for the removal of a brain tumor.

Although the operation is considered successful, she will be a patient in the hospital for about a month. During her absence an aunt is staying with her daughter, Patricia, in Mokena.

Mrs. Perley was employed in an office in Chicago.

The VFW Auxiliary, to William Martin Post at Mokena will sponsor a card party Saturday evening, Dec. 5, starting at 8:30. In charge of the party are: Mrs. Maud Larson, chairman; Mrs. Lucille Long, Mrs. Elsie Genens, Mrs. Ruth White and Mrs. Estelle Weese. Everybody is invited.

Color TV to Come Without Penalizing Black and White

"Color television is definitely on the way, but it will come in an orderly manner without penalizing present or future owners of black and white receivers," was stated by H. C. Bonfig, vice president and director of sales for the Zenith Radio Corporation. He was featured speaker recently at the luncheon meeting of the St. Louis Advertising club.

SAVING OIL TO THE LAST DROP

As it rushes from the well, a thousand cubic feet of "wet" natural gas may contain as much as five gallons of natural gasoline, plus other liquids. Years ago, these liquids used to blow away along with the natural gas for which there was no use. Today, in keeping with the industry's conservation practices, several hundred plants in the

nation's oil and gas fields squeeze and absorb from millions of cubic feet of natural gas more than 18 million gallons of valuable liquids daily. The natural gas then moves to domestic and commercial users, or is returned to the earth to maintain well pressure.

Village Blacksmith On TV to Bring Back Old Memories

An appearance by a village blacksmith on the Dec. 6 "Farm town, USA" television show should bring back memories of the "good old days" to both city and rural folk.

William E. Schering, an 81-year old practicing smithy from Palatine, will bring his tools, forge and anvil into the TV studio for a demonstration of this almost forgotten art.

George Menard, "Farmtown" master of ceremonies, will interview Schering. Arnold Brockmann, Palatine dairy farmer, will also appear on the program.

Plan Taxi Fare Hike In Chicago

Hailing a taxi-cab soon may cost more in Chicago.

A city council subcommittee Monday recommended to increase the cost of stepping into a taxi cab by 10 cents. The initial charge—known as the "flag pole"—for the first two blocks is now 25 cents in Chicago. The full load transportation committee was to study the proposal Tuesday before passing it on to the full council for a vote, perhaps by Wednesday.

The higher initial rate would increase cab company revenues by about 14 per cent, based on current earnings. Or, looking at it the other way, the public's cab bill would be hiked by about \$300,000 a year.

Headed by Ald. Paul Sheridan (16th), the subcommittee rejected requests by Yellow and Checker Cab companies to increase mileage rates an average of five cents a mile. The aldermen also rejected cab company

plans which would have increased rates for extra passengers and waiting time.

Yellow Cab company said it operated in the red for the first nine months of this year, with the operating loss placed at \$222,163. The Checker Cab company said it made a profit of only \$1,011 in the same period. Independent companies have joined forces with the two bigger in the campaign for higher rates.

Truckers Problem Palos Park to Get 700 More Telephones

(CNS) A bitter fight between owners of old, established city homes and the expanding trucking industry in Chicago parallels the American scene of the last century when cattlemen and farmers ruthlessly fueded for possession of land.

Evidence of this stood out sharply in a city zoning board hearing Tuesday directly affecting the Southwest side and also

indirectly sections of the Southeast, West and North sides.

The specific case in question was an application by Lawver F. Sibr, a trucker who lives at 5523 S. Francisco to establish a truck storage lot at 4175-93 S. Emerald, a manufacturing zone.

Strong opposition came from Francis Boyle, of 625 W. 43rd pl. who represented the Stockyards Improvement Association. "We're family men, home owners, trying to conserve our neighborhood against the encroachments of the trucking industry," said Boyle. He argued that home owners first built up the area, adding that they should have the say-so on just who comes into the area. Support came from Joseph A. Power, 531 W. 42nd pl. and Ald. Stanley Nowakowski (11th).

"You ever have your children playing in the streets with big trucks racing down the street at 35 miles per hour? We have that in our neighborhood!" said Boyle.

The board wanted to know how it was to solve the trucking problem. Lawton said the problem

couldn't be solved just by saying that homes are there, so keep all business out.

"It's not that simple," he said. As it took the case under advisement, the board asked how the truckers ad home owners are going to compromise.

Ald. Nowakowski apparently

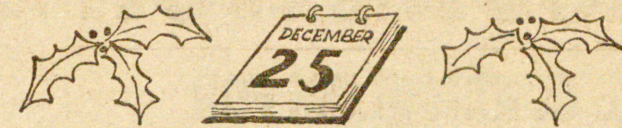

didn't care to effect one. "What's there to compromise if you live in a nice little cottage with big trucks going by?" he said. "I live in one."

When Sibr disclosed his home address, which the board said is

residential. Boyle asked: "Why don't you go out there? There's a lot of vacant lots out there."

"Where?" asked Sibr. "Brother, if you find one, I'll buy it."

TAX FACTS

By George F. Mahlin, Executive Secretary
Taxpayers Federation of Illinois

"Have read where your state's taxpayers are supporting poor old Texas and Virginia," writes an Amarillo Texan, inspired by articles in Texas newspapers quoting the statement of the Taxpayers' Federation of Illinois that the Federal government collects money from Illinois taxpayers to help support the poor in Texas and other states.

"Cannot vouch for Virginia as to the amount of rattling money they have but do know they are steeped in priceless old traditions. However, as you all know the Internal Revenue Department does not accept traditions as payments on taxes.

"Poor old Texas on the other hand has more millionaires in Houston alone than the whole state of Illinois can ever muster. Haven't noticed lately where anyone has given the University of Illinois two and a half million dollars for beating a team in the big ten. Such a small donation was given the University of Houston for trimming Baylor.

It seems this man has donated about 36 million dollars to Houston in the last few years, no doubt half of it came from Illinois. Wichita Falls, Texas has more millionaires per square foot than Chicago will count including Wm. Wrigley (being big people down in Texas however we are not thinking of boycotting chewing gum.)

"Up here in the Panhandle of Texas of which Amarillo is a part I can tell you first hand as to our financial status. Last August was talking to a big wheat farmer and he was heart broken because of the drought the past year. He said he didn't expect to get his seed back, but as I talked a big semi-trailer

truck passed loaded with bushel bags to the top, heading out the gate and for town and still another one came by loaded to the brim. Finally I said, sure must take a lot of seed to plant your farm? Oh, that, he said, why that's the wife's egg money going to the bank.

"In closing I'll say we will continue to pay taxes to help your old people live the life of Riley even if we have to sell a Cadillac to do so. Have no fear, we will not let you down."

Reforms Coming Closer

The first of the Hoover Commission's task forces which will study plans to reorganize the Federal government has been completed.

That gives ground for hope that the state and local governments may soon begin recovering powers usurped by the Federal government during the past 20 years. Only by giving back those usurped powers can we cut the Federal bureaucracy down to manageable size.

The task force just completed will study Federal activities in the water and power resources field. It will also look into developments in navigation, flood control, and reclamation.

Let's hope that the other task forces to be appointed by Former President Hoover are soon ready to start their work. Our chance of getting tax reductions depends largely upon their findings.

World Ills Will Yield to Spiritual Progress, Hord Says

Overwhelming proof that the spiritual understanding of God heals sickness as well as sin and corrects human disorders is a matter of record today, Frank T. Hord of Washington, D. C., told a large audience here at Midlothian recently.

Present day results of spiritual understanding contrast sharply with the widely admitted failure of materialism to solve mankind's problems, he said.

Our more discerning thinkers are telling us that the cure for the ills of the world is to be found in the spiritual teachings of Christ Jesus," he declared.

A former Army combat chaplain, Mr. Hord is on tour as a member of the Christian Science Board of Lectureship. He spoke under the auspices of the Christian Science Society in Midlothian. He spoke on "Christian Science: Its Practical Operation."

Sketching the growing spirit-

ual enlightenment of today and its fruits, Mr. Hord said: "Humanity is being healed of so-called incurable diseases by spiritual means; reforms are being made in business methods; theological theories have undergone great change, and ethics in general have improved."

He said the divine Principle of scientific mental healing offers mankind deliverance from all types of trouble—all that would hinder freedom, happiness, or health, because it is understood and applied on the basis of a perfect God, perfect divine law, and perfect spiritual man in His likeness.

"Our great Master taught us that we must understand God if we wish to live harmoniously," he said. "Every event of your life, your health, longevity, prosperity, and progress depends upon what you know about God."

According to Mr. Hord, the scientific understanding of Christ Jesus' teachings—"the Science of Christianity with its lost art of healing,"—is restoration in the healing work of Christian Science. He said the method of this work is described

clearly in the writings of Mary Baker Eddy, Discoverer and Founder of Christian Science. Basic to these teachings is a fuller love for and understanding of God as an everpresent help in daily affairs, he stated. He said that Christian Scientists "with absolute faith, acknowledge God's power to heal the sick and the sinning. They know that with God all things are possible."

How spiritual understanding of God, as taught in Christian Science, healed a young woman who was suffering from spinal paralysis, was described by Mr. Hord who said he knew first hand the details of the case.

The young woman had lost all use of her arms, legs, and feet, and prominent physicians had said the nerves in her spine were dying. After the physicians failed to help her she turned to Christian Science. With the help of a Christian Science practitioner, Mr. Hord said, she learned of the spiritual nature of God and man, and was healed.

"The impulse to exercise her dominion—to awaken from the dream of inactivity, and use her divine power to fulfill her duty to God by being His active witness, healthy, useful and loving, brought immediate improvement," Mr. Hord said.

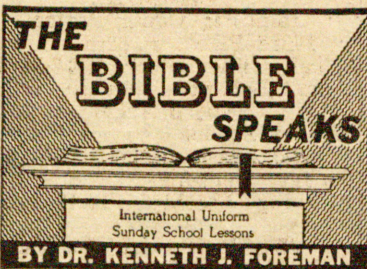

"This young woman's intelligent decision to deny the false sense testimony about herself as a sick, useless mortal, and to accept the divine fact about her self as the spiritual expression of divine Mind, active, free, useful and harmonious, forced the paralyzing error of fear, suppression, bondage, and inactivity to yield to the spiritual ideas of independence, freedom, joy, and perfect activity. A perfect healing took place. In a short time she was walking, sewing, dancing, and enjoying her complete freedom."

He added: "A Christian Science treatment is communion with God; it is inseparable from prayer. It is the spiritual understanding that all things are possible to God, therefore possible to man, His image and likeness."

In referring to the healing by the Master of the impotent man at the pool of Bethesda, Mr. Hord said: "Christ Jesus' clear perception of man's eternal wholeness and perfection as the emanation of divine Mind was so powerful that it awakened the man at the pool from the mesmeric dream of dependence, inability and incapacity."

The thousands of verified healings brought about through Christian Science are evidence, he said, that "all human experience is thought externalized. It is our viewpoint that determines how our world externalizes itself to us. The senses may tell us that the need is for physical healing, for employment, for a more harmonious relation with our family, our business or our country, but the divine demand tells us that the need is for love."

"A clear realization of the presence of divine Love, God, as All in all will heal instantaneously. All healing is based on the perfection and reality of God and man, and all error disappears before this divine fact."

Government Under God

Lesson for December 6, 1953

EVEN today there are people who feel that religion and politics don't mix. The answer to that is, if your politics is the kind that won't mix with your religion, it's either the wrong kind of religion or the wrong kind of politics, or both. Just as it is not safe for a man to try to reserve a part of his personal life, keeping it for himself and away from God, so it is not right nor safe to reserve any section of social life and suppose that God need have nothing to do with it or about it.

Dr. Foreman

Government

When St. Peter tells his friends to be subject to "every human institution" he does not mean that all human institutions are what they ought to be and what God wants them to be. There are no perfect persons; how can there be perfect institutions? The truth is between two extremes.

One extreme view says: Institutions, including governments, are what they are by God's will and ordinance; therefore we must not criticize them, much less revolt. (This is the view of fascism everywhere and always.) The other extreme says: Since no human institution is or can be perfect, let us Christians stick to the one institution of the church, and leave everything else to the realm of sin. But no part of the world, or of human life, can be safely left to the devil. If it is right to try to make a family as nearly Christian as possible, it is right to try to make government as Christian as possible. God's will is that we should have government (in Lincoln's great phrase) "under God." That is to say, government is on the right line when

it is in line with the great principles of life God has shown us. Justice and law should go together. All government uses law; but only good government makes just law. Above all human laws is the Law of God. "Under God" means not simply that God's name is used but that his will is really expressed in what the government does and plans.

The Governor

All good government centers in some kind of executive. He may be called Prime Minister, or King, or President. The name does not make much difference. But there has to be some responsible head somewhere, some person who has the right to make decisions and to order them carried out. This is true all the way down from national to village organization. A government where it is possible to "pass the buck" all around in a circle without any one person's being held responsible or having to make a decision, is a bad government. Both in the Old Testament and in the New, the importance of the right man at the center of things is underscored. Under a good king like David or Hezekiah, the country prospers; under a bad one like Jeroboam or Manasseh the country goes to pieces. Times have not changed much.

The Governed

The great difference between government in the days of Saints Paul and Peter and today, is that in the English-speaking countries, where free Bible Christianity has had fullest sway, we have democracy as our form of government. (This is not forgetting other countries where the same is true, such as Holland. It is also not forgetting that in some countries called democratic, there is nothing of democracy but the name.) Both Paul and Peter, when they wrote of kings and other men of authority, did not picture modern democracy at all. In the Roman Empire the monarch were dictators; they were not elected. In our democratic world the governed are also the governors. Power resides no longer in the throne or in the palace; it resides in the people where it belongs. Furthermore, in the modern democratic world, Christian ideals can make themselves felt as they could not in the palace at Rome or Constantinople, in centuries gone by. Everybody who watched Queen Elizabeth's crowning must have been impressed by the fact that it was a religious act, performed in a church by Christian ministers. Honeylocust Is Top Contender For Beauty Title

A honey of a tree is one of the top contenders in America's arboreal beauty contest. It's the thornless honeylocust, a graceful, fast growing species that is at home in a wide range of soils throughout the temperate zone.

A number of selected clones are already on the market and

several others are being developed by nurserymen and plant propagators, according to the Davey Tree Expert Co. New varieties will range from tall types to broad semi-dwarf types and may include some with golden tips.

Many gardeners and home owners pick the thornless honeylocust for the beauty throne long held by the American elm, until its planting was restricted because of the Dutch elm disease.

Besides being among the loveliest trees, these new honeylocusts are especially popular because of their good resistance to wind and storm damage. Insects and other tree ailments, as shade trees, they do not throw the dense shadows of maples and oaks, but this is often a virtue where lawn maintenance is a problem.

Home owners shouldn't confuse the thornless species with

the native honeylocust, which has vicious thorns and sparser branches. Both of these objectionable features have been overcome in the nursery grown varieties.

Still another advantage, so far as the tired home owner is concerned, is that it reduces fall leaf raking. Leaves that the honeylocust sheds are small in size and in volume.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

Another great Prime Minister of England, Disraeli, once said, "Lather a man before you shave him." There is a great deal of evidence that this advice has remained as British policy.

And at the present time, it points up one of the most serious situations facing the new Administration.

That situation is briefly this:

In Canada, United States money is being discounted. This condition is even reflected in the cost of newspaper.

In the meantime, in the new Congress, members of the majority party cannot decide among themselves on the merits of scrapping controls, reducing taxes. Despite ample evidence government controls, plus high taxes, have done great injury to the progress of independent business.

Before the election, there was strong agreement that control, high taxes should end now.

Then the British Prime Minister arrives in this nation, has secret conferences.

It may be sheer coincidence, but immediately after these visits, some leaders of the majority party in Congress express themselves that perhaps too much haste should not be exercised in cutting taxes, ending controls.

There are also these facts.

Although the United Kingdom is receiving half of the aid given Europe, supposedly as a measure to help in the common defense, with Russia supposedly in the nation that defense against is

needed, British business with Russia is increasing.

In 1952 Britain exported manufactured goods worth \$10 million to Russia, and in the first ten months of the year, British exports of rubber to Russia amounted to \$84.5 million versus only \$5 million in 1950.

Now it is understood that Britain will sell even more rubber to Russia directly through London, instead of through Singapore.

In the meantime, MSA continues to ship scarce materials to the United Kingdom; MSA Bulletin No. 215 reports, on a recent date that copper bought in Canada was given to the U. K.

But in Canada, the American dollar is now being discounted.

On the following day, MSA sends a big shipment of the U. S. supplies of tin plate to Tito's Communist Yugoslavia.

This action was taken just a short time after the National Production Authority virtually put out of business a small independent packer of dog foods in San Francisco because it had used more tin to meet the demand for the company products than NPA had allocated.

Today, in Washington there is wavering, even among those who were the loudest opponents of controls, of high taxes, other evils.

It doesn't seem possible that a visit from an elderly politician from England could cause this wavering. In Washington there is a strong sentiment for appointment of a committee to investigate and reveal the extent of foreign influence in government in much the same way that the Communist plans in America are being exposed.

Service Is Truly Our Business

We are paying a premium to bring mechanics thoroughly schooled in CHEVROLET and with a wide range of experience in other makes of cars and trucks, to the car and truck owners of this area.

In addition, we have added the newest

Sun-Electric, 6 and 12 volt motor analysis equipment to our shop and, again, our mechanics are thoroughly trained in the operation of this equipment.

NOW, we are pleased to announce another service to car owners, who cannot do without transportation, while lengthy repairs are being made to their cars.

Effective immediately, we have placed in service a COURTESY CAR free of addition cost and fully insured, which our customers may use while their cars are being repaired. We especially invite service calls from car or truck owners with chronic poor performance.

Ingalls Memorial Hospital Honored At Annual Meeting
The annual convention of the Illinois Hospital Association was held in Springfield on Tuesday and Wednesday of this week. Ingalls Memorial Hospital was represented by administrator L. C. Mortrud and assistant administrator Iria Koski.

The convention concerned itself with many different aspects of hospital management. Mr. Mortrud served as chairman of the Wednesday morning session which had a dual theme. A symposium and discussion was held on "Developing teamwork between trustees, the medical staff and the administrator" and "Accreditation—a challenge for trustees, medical staff and the administrator."

As Ingalls Memorial has received a great deal of national publicity in recent months because it was selected by the Joint Commission on Accreditation of Hospitals to illustrate how a hospital is accredited, it was especially fitting that he was chosen to preside at this session of the convention.

The fourth annual conference of the Women's Auxiliaries of the Illinois Hospital Association was held in conjunction with the convention. Mrs. R. Bruce Wiseman, president of the Women's Board of Ingalls Memorial, is currently serving as state president. Mrs. H. Bunbardwick, chairman of the Park Avenue Shop of Ingalls Auxiliary, participated in a panel discussion of thrift shop operation.

MOKENA LIGHTS GOING TO TOWN

The Mokena Heavies basketball team tangled with Rockdale Wednesday at Mokena, and were defeated, 32 to 30. The Mokena Lights, however, more than made up for this by defeating the Rockdale Lights 53 to 11. The 53 points the Lights scored were more than the total scored all last year, when they lost every game played. Their improvement is due to the fine coaching of Herbert Wrath, Mokena's 8th grade teacher.

The next game is with Channahon this Friday December 4, in the Mokena gym, starting at 7 p.m.

Here are the box scores for both games:

COOK CO. TOWNSHIP COLLECTORS WANT DELINQUENT LISTS
(CNS) The Cook County board failed to consider at its meeting Tuesday, Nov. 17 a letter from Robert C. McGregor, president of the Cook County Tax Collector's Assn., Maywood, asking that a hearing be granted a committee of township collectors relative to the Dept. of Central Service supplying the collectors with copies of the delinquent list of real properties.

The suggestion is similar to one made by Wm. T. Collins, former association president, which the board ordered filed on March 3. The collectors want what is known as a printer's copy of the delinquent lists for their respective townships.

Among those making the request for a hearing was Anna A. Braasch, of Palos, and William A. Harnew of Worth.

Raise Filing Fees For Zoning Changes

(CNS) All filing fees for zoning changes and variations in the unincorporated areas of Cook county were raised Tuesday Nov. 17 by the County Board of Commissioners.

William J. Mortimer, enforcing officer of the county zoning ordinance, and Walter T. Popjoy, secretary of the zoning board of appeals, had urged the fee increase as needed because

of increased expenses, mostly for legal advertisements needed by law.

The new fees, which went into effect at noon Tuesday, Nov. 17 with the old fees in parenthesis, are: petition to zone less than five acres, \$40 (\$20); five acres to 19.99 acres, \$50 (\$25); 20 acres to 39.99 acres, \$75 (\$35); 40 acres and over \$100 (\$50).

Petitions for variation of setback and sideyard regulations \$25 (\$10); petitions for variation of minimum widths or minimum areas—less than five acres \$25, 5-9.99 acres \$35, 10-19.99 acres \$45, 20-39.99 acres \$55, 40-79.99 acres \$65, 80 acres or over \$75 (all were \$10).

First to file at the new higher rates was Earl J. Clapp, 9851 S. Nottingham av., Oak Lawn, who wants 1½ acres at the north east corner of Harlem av. and 103d street, Worth township, rezoned from Farming to Business.

1954 Road Program For Cook County Totals \$12,173,000

(CNS) A highway construction program for 1954 totalling \$12,173,000 has been approved by the Cook County Board. The one year program does not include work on the county's ex-

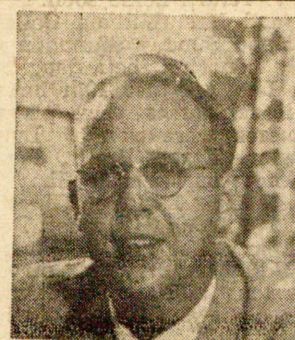

pressway system. Typical projects are one mile of paving on 87th st. between Pulaski and Kedzie costing \$170,000, one mile of concrete surfacing on 103d street from Central to Cicero at a cost of \$130,000, and 2.2 miles of widening and resurfacing on 127th street between Ashland and Indiana costing \$450,000, in Chicago and Calumet Park.

McCarthy road, 96th to 80th, 2 miles bituminous resurfacing, \$70,000, Palos Park and unincorporated areas.

147th street, Cicero to Western, Cicero to Kostner, 3.2 miles widen and resurface, \$512,000, Midlothian, Markham, Posen and unincorporated.

BOY! Are WE going to have a wonderful Christmas!

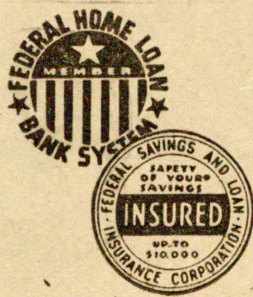

...Dad just got his Christmas Savings Club Check from Harvey Federal Savings!

Lucky little fellow! His folks made sure this would be a merry Christmas. They joined our Christmas Savings Club almost a year ago—and they've been saving a small sum each week so that there would be extra money available for this Christmas season. Now that they have their Christmas Savings Club Check, there is plenty of money for the gifts, decorations and parties that are so much a part of the Christmas spirit—and none of these extra seasonal expenses will disturb the family's weekly budget!

This year...a total of \$124,125.50 was paid to the 1,299 members of Harvey Federal Savings' Christmas Savings Club!

Ever since 1941, the first year that our Christmas Club was in operation, an ever increasing number of families have been subscribing to this convenient savings plan. You can save, according to your own requirements, in amounts of 50c, \$1, \$2, \$3, \$5, or \$10 per week. Surely this is the easiest way to meet the added financial demands of the Christmas season. If you are not a member of our Christmas Savings Club, you ought to join now for next year's benefits. Remember, your money is insured here at Harvey Federal Savings.

BABSON SAYS—

Copyright — 1953 —
Publishers Financial Bureau, Inc.
Panicky readers disturbed by
the increasing number of busi-

ness failures have asked me if
business conditions are not like-
ly to take a sharp drop by 1954.
Here is what I think.
The months to come will sepa-
rate the men from the boys in
business. Right now, when we
are supposed to be booming

along, companies are dying at
the rate of 700 a month. The ap-
proximately 7,500 business fail-
ures since the first of the year
have involved dollar liabilities
far in excess of any period since
the depression.

Too many inefficient business
operators have been swept to
prosperity by the business cur-
rents of strong demand rather
than by their own business ac-
umen. I predict that many more
of these would be entrepreneurs
will be severely squeezed un-
less they wake up, cut expenses
and get hard at work. In gener-
al, this will be good for our eco-
nomy, which needs to eliminate
those who have given the poor-
est service, the shoddiest prod-
ucts, and gone after the fast
buck.

Some of my critics say I am
too pessimistic. They point out
that 67% of our homes are more
than 20 years old, that there
has been a tremendous shift
from farm to suburbs, and that
an entirely new way of living
and lots of new wants have
been created. They remind me
that the number of children in
our population has increased
65% since 1940, and that we
have 80% more high school
graduates in our adult popula-
tion since 1940 who presumably
have much more highly devel-
oped wants than the non-high
school graduates. Some say such
factors as these are dynamic
enough to hold our economy
high.

Against the argument that
we have more people with more
education and with more dis-
cretionary buying power than
ever before, are such realities
as these: Through the early
months of 1953, shoe produc-
tion was about seven million pairs
ahead of potential consumption,
and the industry could easily
have produced 35% more shoes
if they could have been sold. Or
take the automobile industry. At
midyear, 47% more cars had
been turned out than in the
same period in 1952. But sales
rose only 32%. Recent cutbacks
and intensive selling have tem-
porarily reduced this spread.
But let us face the facts: The
Government has cut defense pro-
grams; inventories have been
stockpiling; industrial expan-
sion has passed its peak; indus-
trial building is on the decline.
What is to happen to private
building I will discuss later.

American business cannot
stand still. It moves either for-
ward or backward. To move for-
ward, it must sell. When it stops
selling, it dies. Sales have
slumped because salesmen have
become lazy and sales clerks in-
different. Lots of people still
need lots of things; but price
levels may be too high. I be-
lieve the time has come for re-
appraisal of potential markets
and profit margins. A spiritual
rebirth by employers and wage-
workers is needed. This may
mean only "deluxe models" in-
stead of "super deluxe models".
It will mean much greater man-
ufacturing efficiency, a cutback
in material waste, and an in-
crease in per man output.

While we are learning to do
these things we must expect a
readjustment in business activ-
ity. Among those industries that
will feel the pinch first are au-
tomobile, building, steel, and non-
ferrous metals. But while man-
ufacturers are readjusting to
peacetime demands there will
be strong sustaining forces that
will hold the economy strong,
such as the tremendous develop-
ing demand of the World War
II baby crop, a heavy supply of
savings, and a credit base still

capable of considerable expan-
sion. The greatest hope of con-
tinued good business lies with
the ten or more billion dollars
likely to be spent for the de-
fense of our large cities.

**Park Forest Has
Rain Water Problem**

(CNS) The Board of Forest
Preserve Commissioners has vot-
ed to allow Park Forest to
work on Thorn creek in an ef-
fort to prevent the flooding of
basements in the southeast part
of the village.

At a meeting Commission
John J. Duffy questioned the
board's authority to allow work
which might relieve a bad situa-
tion in one part of the county
only to cause hardship to other
sections of the county.

General Superintendent Char-
les C. Sauers said that rain wa-
ter cannot escape from all of
Park Forest now because a large
percentage of the village is cov-
ered with concrete. He said the
cleaning and straightening of
Thorn creek would relieve the
trouble without causing damage
elsewhere.

The work will be done on
forest preserve land but at the
expense only of Forest Park.
The rain water will eventually
run into Lake Michigan.

**Re-zone 6 Acres
In Bremen Township
Farming to Business**

(CNS) The Cook County
Board has approved the rezon-
ing of six acres of land on the west
side of Oak Park avenue 1000
feet south of 151st street, Bre-
men township. Aldo J. Lucchesi,
9320 South Halsted street, Chi-
cago, had requested the reclassi-
fication. The board acted on
the recommendation of the
county zoning board of appeals.

Christian Science Churches

To understand creation, we
must look, not to human reason-
ing, but to divine logic, not to
physics, but to metaphysics,
where man and the universe are
revealed as created by perfect
Mind and held forever in His
eternal laws. This will be ex-
plained in all Churches of
Christ, Scientist, on Sunday,
December 6. The subject of the
Lesson-Sermon will be God the
Only Cause and Creator.

The Golden Text is from
Psalms (75:1) "Unto thee, O
God, do we give thanks, unto
thee do we give thanks: for that
thy name is near thy wondrous
works declare."

Bible selections (King James
Version) in the Lesson-Sermon
include:
"Lift up your eyes on high
and behold who hath created
these things, that bringeth out
their host by number; he calleth
them all by names by the great-
ness of his might, for that he is
strong in power; not one fail-
eth." (Isa. 40:26).

Selections from "Science and
Health with Key to the Scrip-
tures" by Mary Baker Eddy, in-
clude:

"Creator, Spirit; Mind; intelli-
gence; the animating divine
Principle of all that is real and
good; self-existent Life, Truth,
and Love; that which is perfect
and eternal—Infinite Mind is
the creator, and creation is the
infinite image or idea emanat-
ing from this Mind" (pp. 583,
256).

William Randolph Hearst was
a member of Congress from 1903
to 1907.

**WASHINGTON AND
"SMALL BUSINESS"**

By C. WILSON HARDER

Some odious comparisons are
being made in Washington, with
the question asked "When is a
surplus not a surplus, and who
can afford a surplus and who
cannot afford one?"

While farm surpluses are plagu-
ing the nation, and farm prices
fall because of these surpluses,
there is also found to be a
big surplus of petroleum. But
to meet the situation, al-
though it is done under the name
of conservation, domestic petro-
leum production is curtailed by
law, but foreign oil continues to
pour into nation.

Curtailed domestic produc-
tion is just another way of
saying the independent oil pro-
ducers are cut back on the
amount they can produce, al-
though at the same time domes-
tic holdings of the majors are al-
so cut back. But majors con-
tinue to operate foreign holdings
at high production rate.

Yet while a surplus of domes-
tic food production brings farm
prices down rapidly, the flood-
ing of the U. S. market with a
surplus of imported petroleum
seemingly has no effect on the
gasoline price.

For reasons as yet unknown,
official Washington has always
trod softly when major oil is
concerned. Anti-trust action
based on the report of the FTC that
a worldwide oil cartel is being
promoted by certain major U. S.
oil companies appears to lag.

There are all kinds of excuses
floating around Washington why
major oil is given the soft treat-
ment.

© National Federation of Independent Business

ment. One is that major oil, by
investments abroad, is building
goodwill for the U. S., thus com-
bating Communism spread.

Yet it appears this idea is not
shared by the 15,000 native work-
ers of Aramco, the Arabian
American Oil Co.

They seek an increase in their
\$42 per month wage.

Two points were immediately
made in opposition to this re-
quest. One was that the lead-
ers of the native workers have
been educated. The other point
is that the demand for more
wages must be Communist in-
spired.

Thus it could be inferred major
oil's viewpoint on foreign rela-
tions is that if natives become
educated, and seek more money
it must be Communism.

But to many it now appears
that the old saying should be
changed to "it's an ill wind that
blows nobody any good".

First of all, importation of
cheaply produced foreign oil is
not helping the independent do-
mestic producer, either in the
operation of present properties,
or to encourage searching for
new oil fields in America.

Neither does consumer benefit
by cheaply produced foreign oil,
as gas prices remain same.

And apparently the policy of
producing oil in foreign land is
not promoting world wide tran-
quility and harmony.

In addition, importation of
cheap residual fuel oil for use
as fuel is distressing U. S. coal
industry.

The situation poses a question.
What happens to U. S. if all tar-
iffs are scrapped?

Flexibility IN MECHANIZED MILKING

"BARN TYPE"
Installed in the dairy barn, along the stanchions, for any number of cows. Units are moved from cow to cow; milk is conveyed to milk house through sanitary pipeline. No milk to carry, strain, pour or weigh. Mechanized cleaning.

"MILKING ROOM TYPE"
Installed in a separate milking room into which cows are brought for milking only. Cows come to operator to save time and steps. Elevated stalls eliminate stooping and spraying. Milks, weighs, conveys and automatically discharges milk. Mechanized cleaning.

Handle your milk in any of 3 ways!

Completely mechanized milking... as provided by the De Laval Combine Milker... is adaptable to any type of dairy and offers wide flexibility in planning and operation.

The "Barn Type" Combine meets every requirement of the dairyman who prefers to milk his cows in the stanchions... and does not want to build or use a separate milking room.

The "Milking Room Type" Combine is the choice of the dairy farmer who feels that a separate milking room best meets his needs.

Both types fully mechanize the milking operation—milk... convey the milk... filter it... weigh individual cow production, if desired... and automatically discharge the milk into cans, farm tank or over the aerator. And... both types provide mechanized "In-Place" cleaning by means of the De Laval Vacuum Cleaning Method. De Laval Combine Milkers offer the dairyman a mechanized milking system virtually custom-made to his needs.

Juniors of IFWC to Give Yule Party for Oak Forest Patients

The Christmas season will be ushered in early this year for Occupational Therapy patients at the Oak Forest Infirmary when on Sunday, Dec. 6 at 1 p.m. the members of the Third District Juniors of the Illinois Federation of Women's Clubs will give their annual Christmas party.

Miss Edith Arcaris, Chicago Heights, district junior philanthropy chairman announces that the party will take place in the O. T. Workshop, O. T. and blind wards. It will be a complete party, including refreshments and grab bag gifts for all the patients, as well as, entertainment and Christmas caroling and even a Christmas tree, everything being furnished and served by members of the seventeen junior clubs in the district.

Mrs. A. R. Beardsley, Riverdale, associate director of the district juniors and the only junior member serving on the O. T. Shop Board of Managers has announced that the juniors attending the party will have a good opportunity to see how the various items such as felt hats, scrap materials, old clothing, yarn and miscellaneous items collected by Mrs. Beardsley and the district philanthropy department for the O. T. patients are being put to use.

Items made by the patients in O. T. work will also be available for the members to purchase, the money from the O. T. sales is used to purchase additional materials and supplies to keep nearly 200 people in their "Golden Years" busy in O. T. work and to give them a little more than the bare necessities of life.

U. S. A. 1975
Article No. 3
Approximately 850,000 additional business firms may come into existence to help provide the goods and services which America's growing population will require by 1975, the National Association of Manufacturers reveals in a report on the growth of America in the next twenty two years.

A vast number of new enterprises, the NAM stated, would help to feed, clothe, house and "serve the countless other needs and desires" of a population expected to rise to 190,000,000 in the next 22 years.

The report further reveals that 4,900,000 business firms will be in operation by 1975 if recent and long term relationships between growth in population and number of businesses are maintained, adding:

"This means a net addition of nearly 850,000 firms over the 4,050,300 companies which were in business in 1952. More than that, it means opportunities for enterprising Americans to build successful businesses and, by serving the needs of their fellow citizens, to earn the rewards that success in business affords"

The NAM's estimate was based in part on U. S. Department of Commerce figures on number of business firms and in part on an earlier NAM study which showed that over the years business enterprises increased in number about as fast as the

country's non-farm population.

The Department of Commerce has reported that the United States had 3,097,100 business firms in 1929; 3,382,800 in 1940; and 4,050,300 in 1952. The NAM data showed that between 1900 and 1947 the ratio between business firms and non-farm population stood fairly constant at 3.4 firms for each 100 persons.

The report commented that the NAM's figures are directed toward "developing sound facts about the country's growth and its future potentialities." It stated that they should be "helpful to all thoughtful citizens who want to play their part in building a better America."

The Association had previously announced that if the U. S. population rises to 190,000,000 by 1975 as expected, it is probable that the work force will rise to 88,600,000, to show a gain of approximately 33 per cent over the 1952 total of 66,500,000.

Earlier findings also included an estimate that the country has a "potential capacity" to support this greatly increased population at a level 70 per cent above that prevailing at present and that a two fold increase in national income is "well within the reach" of Americans within the next 22 years.

All the findings except that relating to population were conditioned on the assumption that America's individual enterprise economy will be kept vital and dynamic and that nothing is done to "weaken incentives to work."
